

Polarion Advanced - SDK Workshop

This workshop will give you a detailed overview how to customize Polarion to your own needs. You will understand the three pillars of the Polarion SDK.

- Server-side extensions
- Webservices
- Scripting

The workshop is designed as hands-on training. In pair programming sessions an advanced Polarion Consultant will guide you through prepared examples or even better: Your bring in your customization goal which will be used throughout the training as reference.

Max. number of attendees: 5

Duration: 1 day

Format: On site

Target audience: Project manager,
Project Administrator,
Developer,
Support

“With Polarion we have been able to implement our worldwide distributed development processes to achieve our quality standards and CMMI compliance.”

– Tim Eick, Swisslog
